

## **Sports Premium Information at Coombe Hill Infants School**

### **Sports Pupil Premium 2022-23**

Since September 2013, schools have been receiving extra funding for Physical Education via Sports pupil premium. At Coombe Hill Infants School, this funding is used in a variety of ways to enhance sport at our school. It is our belief that Physical Education is crucial in the development of children's ability to perform a range of fine and gross motor skills, as well as maintaining healthy bodies and minds. To this extent we feel that P.E. is equally as important as the 'core' subjects. Therefore, we are always striving to further develop the delivery of high quality Physical Education across the school.

### **Budget Breakdown**

#### **Income Sports Premium**

#### **£18,090 Total Expenditure 2021/22 (financial year)**

Travel to Sport Events £150  
Love the Ball sports coaches £6,000

Country dance festival £65  
PE resources £500  
After school clubs £15  
Healthy school week £150

**Total £117,800**

### Inclusion

We understand the importance of ensuring that P.E. is accessible to different groups and abilities.

#### **Whole School Participation**

**Tournaments and events-** Through the KSSP, Coombe Hill Infants have attended several Football Festivals and Multi Skills events. Children are selected to represent the school, based on the skills they demonstrated during PE lessons and after school clubs. KSSP is established to promote a sense of sportsmanship and love for sport. The children are presented with medals and/or certificates, honoured in a special celebration assembly at school. Opportunities are given for children to attend these events regardless of experience as we believe that it is important for all children to gain exposure to different sports and physical activity.

#### **After School Clubs**

We provide clubs after school to support children who are developing fine and gross motor skills. Many of these clubs are subsidised or free for low income families. This ensures equal access for all our children, to a range of sports including football, girls football, yoga and many more. This year we have introduced new clubs that teachers are passionate about. \*\*\*\* children are currently enrolled into a club.

#### **Curriculum**

All children access PE lessons twice a week. During lockdown, PE was included in home learning activities and regular PE challenges were set. We follow the Merton PE scheme which provides all teaching staff with in-depth plans, ways to assess the children and a variety of different games that they can play linked to the skills taught. We are a **Daily Mile** school with each child running everyday. All children across EYFS and KS1 have regular access to challenging climbing playground equipment and a climbing wall.

### CPD

Our PE leader also attends regular training and shares good practice with other teachers.

### Impact of Funding

**Impact:**

- Following the success of Coombe Hill Infant School's involvement in sports, including Healthy Living Week, Daily mile, lunchtime football, swimming gala and lessons, whole school Sports Day we feel that sporting links within the school are stronger and more positive.
- With the addition of a new PE scheme to follow, all teachers are more confident when delivering PE, including teaching assistants when both supporting lessons and delivering them.
- Our Sports coaches have supported all children and developed their skills in athletics, football, basketball, cricket and rugby.
- Being a part of the Coombe Cluster has allowed the PE lead to regularly meet and share ideas with other schools.
- Children are more aware of how to live a healthy lifestyle, including the correct foods to eat and the importance of exercise.
- All pupils completed the Mini marathon
- We are currently in the process of achieving our Silver Healthy Schools award

**Links with the Community**

We work closely with other local schools and take part in inter-school competitions, tournaments and swimming galas.

Each year we invite the parents/carers to our annual Sports Day and encourage them to join in the races and games. Parents with particular skills are also invited to deliver workshops during Healthy Living Weeks.

One of our ex pupils is an England rugby player and she regularly comes in to talk to the pupils. We are currently following her world cup journey. Fred Afrifa, a budding Olympian, visited to talk about his journey and he gave a motivational speech and delivered a workshop. We also have an ex pupil who is a budding Olympian diver and he visits the school. A LTB coach is volunteering 2 x weekly to support PE in EYFS.

**Sustainability**

We have a good selection of PE equipment to ensure that the children have up to date and modern facilities to use and we seek teacher feedback on an annual basis on what new equipment is needed to support the learning taught during PE lessons.

We have provided a range of equipment for use at playtimes and the lunchtime staff ensure that the equipment is used appropriately. The children have access to a climbing wall, balance trail and slide.

We hope that the steps we have taken will ensure that the children maintain a positive and motivated attitude towards physical education, as well as encouraging a strong sporting ethos that continues throughout the school and their lives.

### **Provision**

In the Foundation Stage, each class is allocated one session of PE. However there are many opportunities for physical development throughout the day, inside and outside of the classroom, with the added addition of a high quality outdoor provision, ensuring and supporting physical development in line with the EYFS curriculum.

In Key Stage One, each class is allocated two sessions of PE. Children in year one can take part in physical activities in the outside area each afternoon. Our provision is boosted by the extra-curricular activities that are on offer for children throughout the school. Children have the option of taking part in one of our many after school clubs. Furthermore, with our membership to the Kingston Schools Sports Partnership (KSSP) children are able to compete in inter school competitions.

In all year groups, the children participate in the Daily Mile.
